Forecast for Friday 17 Mar 2023

Weather: Extensivelky cloudy in the west especially at first, but this will develop breaks to reveal sunny spells for a time during the morning. Scattered showers will also bubble up from around the middle of the day, with some eventually heavy with a small chance of hail and thunder. Becoming more widely cloudy once again later on, with further showers mergeing to longer spells of rain in the evening.

Chance of cloud-free hill tops above 600m: 30% to start the morning, best chance in east. Improving to 70% by afternoon.

Low cloud and visibility: Areas of fog and low cloud above 300m overnight and in the morning, mainly over western hills, with patches on lower slopes. Cloud lifting and breaking by the afternoon with most summits clearing. Away from cloud, mainly good but briefly less than 10km in any showers.
